Full length ceremony film \$350 / Full length reception speeches \$250

Additional Hours - \$350ph // Engagement Shoot \$350

FAQs

What is your approach to a wedding?

Ben & I like to keep things natural and relaxed. We may give you a little direction throughout the day but for the most part we will hang back and do our thing! We know how awkward it can feel being on the other side of the camera so we make it easy and heaps of fun!

How many hours of coverage do I need?

The answer will vary on the length of ceremony, number of guests and your prep, ceremony, photoshoot and reception locations. However as a general rule 6 hours should cover your ceremony through to the start of your reception & 9 hours will cover you from bride and groom prep all the way through to those dance floor shenanigans!

How long does it take you to edit your photos and film?

We allow 8-12 weeks for you to receive the finished product, sometimes a little longer during peak periods. But we'll be sure to give you a few little sneak peaks along the way and keep you updated on our progress!

What music will you use in our highlights film?

Due to copyright laws we are unable to use commercial songs in your highlights film. Luckily we have some incredible libraries with hundreds of independent artists and different styles.

Music is crucial to the editing process, it is the bones of the film. Ben and I spend many hours choosing a song that suits your wedding theme and taste. And every one of our couples so far have loved our choices!!

Do you include drone footage in your films?

Yes, so long as there are no local restrictions and the weather is good we usually include some landscape shots of your ceremony and/or reception locations. As drones are noisy and obtrusive, we usually take ours up discreetly in between formalities.

Do you provide raw footage?

No, unfortunately not. There are many reasons. One being that the style we shoot is for your cinematic highlights film. This means everything we shoot (with the exception of your ceremony and speeches) is in 5 - 10 second clips from different angles so when we cut them together they make an incredible highlights film. With the quality and size of the raw files combined with our shooting style, it would not be possible to have the camera rolling throughout the entire day. Another reason being that we shoot in a flat colour so that we can colour correct and add our signature look to your film. The edit is the main part of a wedding film. We spend many hours carefully crafting your footage into something amazing. The raw footage is only a very small part of the end product. But good news is, you can opt to add on your full ceremony and the speeches to your package so all the parts of your day are covered in one of the three video files.

Do you use audio snippets from the ceremony & speeches in the highlights film?

No we don't. Our editing style uses light, beautiful visuals and movement combined with carefully selected music that suits the vibe of your wedding day to build emotion.

But the great news is you can opt to add on the full length ceremony and speeches films to your package if you'd like to enjoy them again!

What now?

If you decide we'd make a good fit, we'd be thrilled to have a share in your big day!

To secure your wedding date we require a 25% deposit with the remainder due two weeks prior to your wedding day, as well as our online contract filled out.

If you'd like to book us for photography, we'll arrange a time to meet up and chat about your day. We love to be involved in the planning process to help you allow enough time for each part of the wedding day so you're not stressed or rushed and so that your photos (and film) can be the very best they can be.

For videography you're most welcome to book a Skype or Face-time with us. Our online questionnaire does have all the info we need and I'm more than happy to liaise with you via email!

We look forward to chatting with you soon! Ben & Lauren xx
